

Rail Siding

Our 400' Rail Siding, which branches off of the Norfolk Southern main line that runs through Shelby County, provides both the greater Louisville industrial market and overall region with a loading and offloading option for rail cargo up to and including over-dimensional and super-load capacity.

Rail Siding | 400 feet

Centralized Location

Our Corporate Office/Yard in Shelbyville, Kentucky is accessible to over 65% of the United States within a one day drive.

Industries from all over the country can partner with Edwards for storage, loading/offloading, heavy haul, and rigging capabilities.
